

● Înmulțirea când ambii factori au două cifre

Data _____ Nume _____

1)
$$\begin{array}{r} 23 \\ \times 32 \\ \hline \square\square\square \\ \square\square\square \\ \hline \square\square\square\square \end{array}$$

2)
$$\begin{array}{r} 12 \\ \times 12 \\ \hline \square\square\square \\ \square\square\square \\ \hline \square\square\square\square \end{array}$$

3)
$$\begin{array}{r} 67 \\ \times 23 \\ \hline \square\square\square \\ \square\square\square \\ \hline \square\square\square\square \end{array}$$

4)
$$\begin{array}{r} 74 \\ \times 15 \\ \hline \square\square\square \\ \square\square\square \\ \hline \square\square\square\square \end{array}$$

5)
$$\begin{array}{r} 91 \\ \times 19 \\ \hline \square\square\square \\ \square\square\square \\ \hline \square\square\square\square \end{array}$$

6)
$$\begin{array}{r} 82 \\ \times 43 \\ \hline \square\square\square \\ \square\square\square \\ \hline \square\square\square\square \end{array}$$

7)
$$\begin{array}{r} 17 \\ \times 17 \\ \hline \square\square\square \\ \square\square\square \\ \hline \square\square\square\square \end{array}$$

8)
$$\begin{array}{r} 44 \\ \times 55 \\ \hline \square\square\square \\ \square\square\square \\ \hline \square\square\square\square \end{array}$$

9)
$$\begin{array}{r} 52 \\ \times 28 \\ \hline \square\square\square \\ \square\square\square \\ \hline \square\square\square\square \end{array}$$

10)
$$\begin{array}{r} 15 \\ \times 16 \\ \hline \square\square\square \\ \square\square\square \\ \hline \square\square\square\square \end{array}$$

11)
$$\begin{array}{r} 33 \\ \times 33 \\ \hline \square\square\square \\ \square\square\square \\ \hline \square\square\square\square \end{array}$$

12)
$$\begin{array}{r} 75 \\ \times 25 \\ \hline \square\square\square \\ \square\square\square \\ \hline \square\square\square\square \end{array}$$

13)
$$\begin{array}{r} 68 \\ \times 86 \\ \hline \square\square\square \\ \square\square\square \\ \hline \square\square\square\square \end{array}$$

14)
$$\begin{array}{r} 97 \\ \times 48 \\ \hline \square\square\square \\ \square\square\square \\ \hline \square\square\square\square \end{array}$$

15)
$$\begin{array}{r} 24 \\ \times 63 \\ \hline \square\square\square \\ \square\square\square \\ \hline \square\square\square\square \end{array}$$

16)
$$\begin{array}{r} 11 \\ \times 67 \\ \hline \square\square\square \\ \square\square\square \\ \hline \square\square\square\square \end{array}$$

17)
$$\begin{array}{r} 49 \\ \times 17 \\ \hline \square\square\square \\ \square\square\square \\ \hline \square\square\square\square \end{array}$$

18)
$$\begin{array}{r} 88 \\ \times 77 \\ \hline \square\square\square \\ \square\square\square \\ \hline \square\square\square\square \end{array}$$
